

## One direction

When I was younger, I tried to believe  
That all the people just want to achieve  
Personality and great old success  
Times went by, I gotta stop and catch my breath

Going after the words my father spoke  
Growing up sometime my life's a joke  
Soon I understood this rule was out  
It's other things we always worry about

### Chorus:

Breath in, breath out  
Loneliness forces my soul to shout  
Breath in, breath out  
Swimming with people in one direction

When I grew older I gotta give up  
All the people just never stop  
To do what others do and think the same  
Being unique our ego starts to be ashamed

Going after the words all others spoke  
Growing up, sometime their life's a joke  
Soon they understood unique is out  
They don't worry and swim with the crowd

### Chorus

### Bridge

Going after the words all others spoke  
Growing up sometime my life's a joke  
Soon you understood unique is out  
Always ready to swim with the crowd

### Chorus

### Fade out
